To Whom It May Concern:

I am happy to provide a reference for Torrey Hills Technologies. The Momentive Engineered Coating Technologies group has worked with Torrey Hills Technologies on numerous projects since 2010. Torrey Hills Technologies manufactures and provides us custom metal parts for our various applications. The company offers high quality, great service and competitive rates. Across the board, we are always pleased with their work.

If you are seeking excellent electronic packaging materials with advanced material manufacture technologies, Torrey Hills Technologies can be your best business partner. I recommend Torrey Hills Technologies and look forward to working with them in our future business.

Sincerely,

A handwritten signature in black ink, appearing to read "Wei Fan".
